"Organization in Special Consultative Status with the Economic and Social Council since 2011"

protect, and have access in privacy to their religious and cultural sites; the right to the use and control of their ceremonial objects; and the right to the repatriation of their human remains.

States shall seek to enable the access and/or repatriation of ceremonial objects and human remains in their possession through fair, transparent and effective mechanisms developed in conjunction with indigenous peoples concerned, build on this article and others from Declaration on the Rights of Indigenous Peoples.

Recommendations:

- 1: For the Iraqi government with support of international organization should adopt comprehensive plan to provide security protection to the remaining archaeological sites which are also in desperate need for maintenance and restoration.
- 2: For the local government in coordination with NGOs and religious leaders from various groups such as Jewish, Yezede, Sabeaa, Christian and Muslims to educate and foster their followers on the Principle of Religion Freedom which supports the freedom of an individual or community in public or private places. Additionally, to establish reconciliation workshops for the various ethnic and religious back ground.
- 3: For the Iraqi government in consultation with representatives of Indigenous Peoples to consider the inclusion teaching, of Assyrian history through the curriculum education system. Additionally, establish new department for teaching of Syriac language at the university of Nineveh plain in Bakhdeda.
- 4: To urge government to secure and protect religious shrines of various religious components and cemeteries. The destruction of cemeteries is one of vital element for the loss of confidence in security which encourages Indigenous Peoples to emigrate.

Thank you for your attention and long live Indigenous Peoples world wide
