

## REPORT

Dear Chairman!

Dear participants and guests of the Permanent Forum!

I, Ogava Tatiana, I am chairman of the local social organization of indigenous peoples Poronaisk District, Sakhalin Region, Sakhalin Island, Russia.

1. I Uilta nationality, are representatives of aboriginal indigenous people of Sakhalin (with Nivkhs and Ainu). To date, the number of my people on Sakhalin Island is just 390 people, and in the city - where I live (where I come from) we live 230 people. But a few centuries ago, my people - Uilta Sakhalin reached the number up to a thousand people (the main traditional craft - herding). And I appeal to you with their pain: my nation is on the verge of extinction. I'm afraid that my people will completely disappear from the face of the earth through 100-150 the years.

**Recommendations of the Permanent Forum:** It is necessary to immediately and is now actively raising the issue at the state level about the complete disappearance of the small indigenous peoples around the world, not only in Russia! To state that is home to the representatives of the small indigenous peoples have taken steps to prevent their extinction and disappearance!

2. I want to add on NHRIs and also a good share of experience in this area:

We Sakhalin since 1992. Job (not the Ombudsman) Indigenous Peoples at the Sakhalin Regional Duma deputies (the legislative body of state power at the regional level), which defends our rights and has full authority to make proposals of indigenous people in those or other acts , including traditional forms of fishing - fishing, hunting, herding, gathering. Also for our approved limit on personal consumption of 200 kg of fish on each representative of indigenous peoples.

3. We have a significant and long-term experience with oil and gas companies, "Sakhalin Energy" and "Exxon Neftegas Limited" (USA). For several decades, the Development Plan on socio-economic and cultural development of indigenous peoples 3 Parties to the Agreement: oil and gas company "Sakhalin Energy" + Government + Sakhalin Region Regional Council of authorized representatives of the indigenous peoples of Sakhalin Region. Under this program in 2014, communities and national enterprises received from the regional budget of 14 million rubles for its development - and this funding in the amount they receive each year!

4. Even the area of indigenous peoples over the last 3 years have been actively engaged in reviving and maintaining the traditional way of life and fisheries. So, if in the period 1988-2004 years in Sakhalin was created 24 tribal communities, enterprises and national companies, already in 2014 their number has already reached 61, which indicates the growth of national consciousness and ethnic pride of our people!

Thank you for attention!
