

Qui a traité cette question? qui a donné l'ordre de communiquer les documents au Conseil? qui a rédigé la lettre au Délégué de la Perse?

J'étais à Paris et n'ai été ni consulté ni même informé, quoique cette question non seulement relève de ma section, mais y ait été traitée précédemment.

This matter was dealt with by S.G. in consultation with M. Branting & the letter was drafted on their instructions. I am sorry the pp were not shown to you in Paris but as you know it is almost impossible under the circumstances of such a meeting to keep up as scrupulously as at Geneva the liaison between different branches of the Secretariat; & as you will see from the dates S.G. treated the matter as specially urgent in view of the fact that it was expected that the C<sup>c</sup>. would end on Tuesday & it was necessary to circulate the document on Monday at latest.

I sent the pp together with a draft letter to Canada to you this morning
