

UNPFII: EMPOWERMENT OF INDIGENOUS WOMEN. Patricia Anne Davis, MA: 206-7786721,Email: patricia-anne9@hotmail.com Website: www.nativeamericanconcepts.wordpress.com

All my relatives: Ya at teeh, shi kei shi dinee'. GRATITUDE for Indigenous People's land & Congratulations Madam Chair. I am here for Pah ta ma wi kan, as a precious child of creator & creation, our ancestral *holy people* & as a Child of All Nations. I am born of the Choctaw People & born to the Taa chii nii & Kin yaa aanii of the Dine Nation of American Indians. I am here to present co-creative solutions to restore our Inherent Sovereignty by reclaiming power within to have power with each other in the Sacred Circle of Life – *hoozhoji k'e iina, ate*. This eliminates the need for brute-force & power over. By naming the out of balance condition & identifying the root cause, we can design the correction for manifesting peace making through love, peace & abundance in alignment with the natural order & universal laws that govern us. Today, World Governments are realizing that our Earth Mother is in peril. Now, in contemporary times, this country is repeating the same "Folly" of all Empires in recorded history: Win-Lose is No-Win for everyone & results in Destructive & Death-producing decisions & outcomes: poverty, homelessness, hunger, addiction, incarceration, disease, rape of Mother Earth, & women. Thus, there is the on-going futility of the violence & war. People of color & women historically have had to "agree to lose" & "pay to lose". And why is every generation of youth recruited to participate in their own demise? And why do we perpetuate Racism, as a construct for manipulating world resources with an assumption of superiority, privilege & entitlement that perpetuates the addiction of greed, which is never satisfied & never enough?

At a planetary level, the first out-of-balance condition is the Denial of ONENESS, as our body is Earth, 70% is Water, Fire is temperature & Air is the *creator's sacred breath* – *nil chi diyiin*. The second out of balance condition is male dominance & female submission, instilling animosity & aggression within the male & the female & between them, so that this war within is projected outward into perpetual conflict, rape & warfare for centuries. We are all of the Earth, Water, Fire & Air living within the environment of Earth, Water, Fire & Air. We cannot be outside of or separate from these four (4) sacred elements of life. Yet those who believe they exist outside of & separate from these four (4) sacred elements are using their five (5) senses as a *weapon* against themselves & others to destroy us & nature. The co-creative solution of Indigenous Women Empowering themselves is to affirm & live there Life-giver/Nurturer female life task & support men in Reframing themselves out of the Perpetrator/Predator life-script into a Protector/Provider male life task to engage in a healthy-helping teamwork to bring Win-Win Constructive & Life-affirming decisions & outcomes to manifestation in the family, community, society & World Governments.

Together, let us deconstruct the insane thinking of Colonialism that exploits the land & resources & victimizes Indigenous people & let us implement Stewardship of our Nations, for our collective survival. Fear is a call for Love & they cannot co-exist; Guilt is a call for Peace & they cannot co-exist; Scarcity is a call for Abundance & they cannot co-exist. *Ehoin* - *holy thinking* is the appropriate function of our whole brain thinking & our creative imagination for the co-creative solutions. Therefore, Pah ta ma wi kan inspires, invites & motivates Peacemaking through Reverence for balance & harmony within the natural order from our sacred-SELF in our sacred place within the universe. Hozho... Ahe' hee' – thank you "All My Relatives!"

All *healing* occurs within an Affirmative thinking system. The four phases of a healing process leads to curing, not coping, when using thinking in holistic alignment with our *sacred-SELF* identity as a precious child of creator. The term "Wealth Care" is Wellness Restoration by reclaiming *powerwithin* to have *powerwith* others within the context of the *natural order* for good health and abundance in life.

Tree of Life, woven by Marie Begay, Navajo.

My english name is Patricia Anne Davis and I am born of the Mississippi Band of Choctaw for the *Taa Chii nii* and Kii

yaa aanii Clan of the Dineh/Navajo Nation. I earned a B.A. in Psychology from the University of Arizona and an MA from Antioch University-Seattle, WA. I worked in the Health and Human Services Profession for over 20 years, in Behavioral Health, Mental Health and Social Services in various positions within the continuum of care from outreach to director. I am an Indigenous Medicine Diagnostician and Practitioner by tribal initiation and training. I worked as an Administrator, Grant Writer and Trainer. I am a Wellness Restoration Consultant, International Teacher and Whole Systems Designer Specializing in Peacemaking Leadership.

I designed an authentic Indigenous ceremonial change process that is inclusive, cross cultural, inter-generational and universal in practical application: *namning the out-of-balance-condition/root cause-emptying-reframing-manifesting wellness & life application of win-win decisions.*

Wealthcare

Hozho is an all encompassing concept of holiness and wholeness within the organic *natural order* context from an indigenous language worldview simplified here:

Interpersonal - powerwithin

Air: Spiritual

Fire: Intellectual

Water: Emotive

Earth: Physical

Intrapersonal - powerwith

Corn symbol: social/economic well-being.

To claim *powerwithin* to have *powerwith* others within the *natural order* eliminates the need for *powerover*. No deficient self-image can exist in *hozho*. There is no conversion or remediation program of the deficient self-image toward some end state of enlightenment. When one denies their spiritual *SELF*-identity, a dis-ease condition precipitates into a manifested disease.

Health is our true wealth for creative living. We remember and reawaken to our sacred-SELF as a precious child of creator.

Hozhooji is living the loving way

Wellness & Abundant Living

A person can learn to use their sacred *SELF-intellect* to discover the co-creative solution by learning how to make a win-win decision for collective survival.

Wellness and abundance can manifest as a way of life by reframing destructive and death-producing choices into constructive and life-affirming choices.

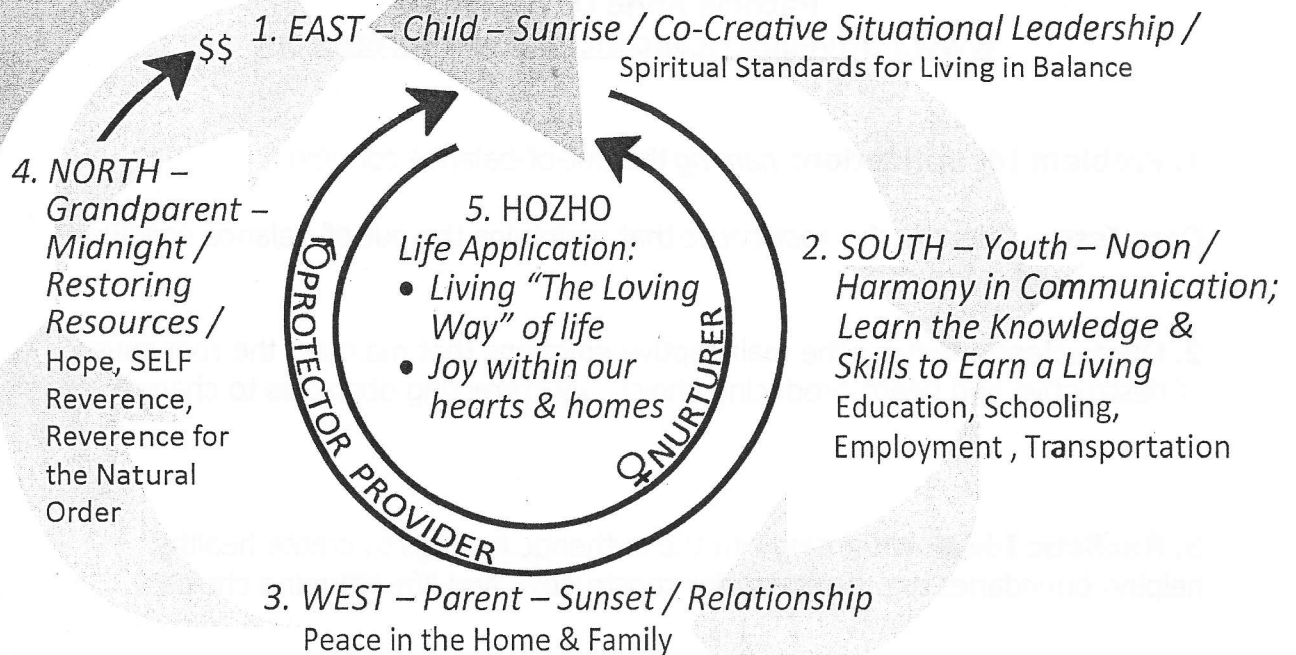

Wealthcare principals include:

- ❖ Co-Creative Leadership
Situational
- ❖ Peace Making Communication
- ❖ Healthy Helping Relationships
- ❖ A Healing Process leads to curing an out of balance condition by identifying the core issue: root cause
- ❖ The Life Application of *power within* to have *powerwith* others can manifest wellness as a way of life.

Learning is healing - healing is learning

1. Problem Identification: *naming* the out-of-balance condition.

Core Issue: identify the *root-cause* that maintains the out-of-balance condition.

2. Obstacles: *emptying* the maladaptive emotions that maintain the root cause of destructive and death producing choices by correcting obstacles to change.

3. Realistic Ideal: *reframing* into the authentic feelings to create healthy helping boundaries and decisions for constructive and life-affirming choices.

4. Co-creative Solution: *manifesting* the win-win co creative solutions.

Design Process:

- Envision – visualize: *seeing*
- Conceptualize – intention: *thinking*
- Dialogue – affirmation: *speaking*

5. Life Application: co-creative situational leadership for decision making and designing the co-creative solutions:

Manifest Process:

- Construct – manifest: *doing*
- Life Skill – *living* co-creative solution
