

Mr. Makinnon Wood

You ought to see this ..

I agree with M. Valléry Radot's suggestion .. But I am in doubt whether it is convenient to specify in our reply "communications émanant de source privée" as that could give rise to possible polemics with the so-called "Confederacy".

Perhaps we could return the box and documents, informing that "les règlements en vigueur s'opposent à leur transmission par le Secrétariat" .. etc. - without giving reasons or details! -

I shall be grateful to
hear your opinion on
the subject.-

Do you think the reply
should be signed by
the Legal Section, or
rather the Registry?
